A FANCY SKETCH.

In conclusion Mr. Phelps drew a fancy sketch of the presence of members of the House at the Philadelphia celebration. He depicted Kelley as rolling the magnificent volume of his volce through the long elses of the building, and bichish as asking and obtaining leave "to print his last speech," and Mr. Cox as "hovering like a lovely little cherub, dispensing dew drops of wit and fancy in a perpetual shower to an appreciative and uncompianing audience," and the Speaker, "using his golden gave," and the Speaker, the buil had passed," the buil which declared that "from the Fourth of July, 1836, gold and sliver should be the only legal tender in the United States of America. Then "the Centernial session would disperse amid the plannits of the assembled multitude, and would be adjourned until the Fourth of July, 1970." [Langhter and appliance.]

The jury asked the court to delay the charge until to-day, Mr. Kernan bade his rilends good by, and started for his home in Utica. Many of Mr. Sprague's friends feer a disagreement.

LIQUOR DEALERS IN COUNCIL.

About 1,000 liquor dealers assembled in Masonic Hall last evening to hear the report of the committee which represented their interests in Albany during the legislative season. Mr. Aaron Herzberg occupied the chair. Messrs. Mark Lanigan and Moritz Herzberg of the committee presented the following statement:

In accordance with your instructions your committee proceeded to Abany with a bill in the interests of this olding, drawn up by the Hon. Aibert Cardozo and the Hon. Richard O'Gorman. We intrusted the bill to Mr. Avord, who introduced it in the Assembly. It was referred to the Committee on Internal Affairs. We appeared before that committee with counsel and advocated the passage of the bill. Of the result of our efforts you are aware. We were deteated in the committee, out a minority report was made favorable to our first cause, and we feel bound to declare our manks to the gentlemen composing the minority, Mesers. Smith, Scherman, and Myan.

Finding that we could not get our bill through we concluded that the next eet thing would be to defeat the bill reported and weep the law as it has been, in this, at the expense of constant vigilance and attention, we were successful. Two different bils were introduced, one in the Senate and one in the Assembly, both with the purpose of giving to the Commissioners of the Board of rackset thee p. wer or levying fines and panishing by, imprisonment those who being engaged in the Fujuor trane might have failed to make satisfactory arrangements with the board. Ho contend successfuly against those measures required attendance as required at the danger of the bill in the Senate. It is with pleasure that we are an ector-port that we so far succeeded in the mission entrasted to us.

Mr. Lanigan said that it was the desire of every honest liquor dealer to pay a fair license,

and e to report that we so far succeeded in the massion entrusted to us.

Mr. Lanigan said that it was the desire of every honest liquor dealer to pay a rair license, and he urged that a committee bo appointed to confer with the Excise Board.

The following resolution was adopted:

Reacted, That a committee of five be appointed to confer with the Excise Commissioners with a view to an arrangement warreby, first, every respectable influor dealer shall have a licruse, or at all excise that his application shall be acced upon within tarriy days after it is made, and if rejected, that the grounds of objection shall be stated, an the application in accessed.

2. That the derived testing the accessed to produce a reasonable sum, graduated upon the should of sales, as will be note all respirable dealers to produce the sales, as will be carrying on.

Each member of the association was assessed \$5 to defray the expense of the visit to Albany.

Sr. Louis, May 6.—At the city election in Han-nibal (Mo.) yesterday, the question of heense or no license was submitted to the people as an independent proposition. No license was carried two to one. A novel 'cature of the contest was that many laties on both sides of the question remained at the poils all day, and electioneered with great vigor and extrestness. The victors were very judical last night, and the city was ablaze with bondres. The church bells were rung, and other demonstrations were made in honor of the event-

A few native cattle were sent from the abattoir to endeavor to coax him back, but he could not be persuaded to return. After again racing through several of the principal streets, he at length stopped in Seventh street, hear Grove. The animal seeing a Jersey City reporter close to a tree near by, made a dash for him. The reporter went up the tree, and the steer tried to follow him, but feli. The steer then paid his respects to a boliceman, who scampered off, permitting it to kick up the dust in Erie street and travel to Hamilton Fark blace. A man on a shed with a musket fired at the steer and started him again down Pavonia avenue. A woman wearing a red shawl narrowly escaped the maddened beast. Frank C. Hollins, one of the Board of Education, was in a carriage. His horse made better time than the steer, and Mr. Hollins was saved. Two workmen, repairing the street, were knocked down by the steer. A score of politicians, policemen, and oth rs fled rapidly at his approach, but Policeman Campbell checked the wild career of the beast with three builtets.

Animated Machinery. Our bodies are like timepieces. When they run down we must wind them up; otherwise they will stop forever. What key will best perform this work of renovation? Experience has shown that it can be accomplished more rapidly and certainly by a course of floatetter's Stomach Bitters than by any other article under
the sun. That searching, yet barmless, agent seems to
reach every spring, and lever, and wheel, so to speak, of
the living machine. The relaxed nerves are braced, the

the disordered bowels are regulated, the lost appetite is
restored, the clouded unind is brightened—in short, the
